## SAMPLE

## Accuracy Recording Form

Student: $\qquad$
Class/Teacher: $\qquad$ Observer: $\qquad$
Instructions: Record the number of problems correct and the total number of problems. Next, calculate the accuracy by diving the number of problems correct by the total number of problems.

| Date | Number of Problems <br> Correct | Total Number of <br> Problems | Accuracy |
| :---: | :---: | :---: | :---: |
| $4 / 15$ | 15 | 35 | $43 \%$ |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  | Total/Average: |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
