MODULE 8: Digital Tools (Wednesday) Begins June 19	6
MODULE 9: Course Plan (Thursday) Begins June 23	8
MODULE 10: CDI Conclusion (Friday) Begins June 24	7

# 6

**In this module, participants develop a set of learning activities to use in their upcoming online courses.**

What recurring learning activities will I plan for the students in my upcoming online course?

What challenges, technical and otherwise, do I see in implementing these online learning activities?

Monday, Week 2 Day 1

## Application

Each participant will

- Compile a set of learning activities they might use in their upcoming online course that foster cognitive, teacher, and social presence and align with their course goals and objectives
- Identify potential technical and pedagogical challenges posed by these learning activities, for both students and teacher

## Overview of Learning Activities for this Module

Click on the blue links below to do each of the following learning activities. Please do the activities in the order indicated to ensure that our interactions--both synchronous and asynchronous--as as productive as possible.
