

Special Education Acronyms

Est. Time: 40-60 Minutes

Objective

To understand selected acronyms used in the field of special education and to identify available resources for explaining frequently used special education acronyms.

Overview

In an attempt to communicate more efficiently, the use of acronyms has increasingly become incorporated into the oral and written language used by educators. As we seek to build a unified system where all educational leaders share the responsibility for educating students with disabilities, it is important that educators are able to interact effectively. One area that needs to be addressed is the meaning of frequently used acronyms. Though some terms are universally accepted, regional differences still exist in the meanings attached to some acronyms.

Activity

1. Without using any resources, complete the attached table by filling in the correct terms for each acronym.
