Challenge

- Video: For a second time, 16-year-old Carlos has been incarcerated at the Maple Hill Juvenile Corrections Facility, this time for approximately nine months. Carlos understands that if he continues on his current path, his future will probably look much like his father's: in and out of jail in an unbroken cycle. Carlos wants to turn his life around and knows that this might be his last chance.

Initial Thoughts

- What is transition planning and why is it important?
- How might transition planning evolve during incarceration?
- What are some emerging findings regarding successful transition?

Perspectives & Resources

Module Objectives

- After completing the entire Perspectives & Resources section and reviewing the accompanying activities, the learner will:
 - Learn about the transition process for incarcerated youth returning to the community
 - Recognize the evolving nature of transition planning
 - Identify research-based practices that improve transition outcomes for these youth
 - Recognize key activities that lay the foundation for effective transition
 - Learn about emerging findings regarding successful transition outcomes for incarcerated youth
- This IRIS Module aligns with the following licensure and program standards and topic areas...

The contents of this resource were developed under a grant from the U.S. Department of Education, #H325E120002.
