Challenge

• Video: Ms. Milton has just learned that she’ll have two students with visual disabilities in her classroom this year. She is unsure of how to make these students feel comfortable and whether they will be able to participate in all the activities she has incorporated into her lesson plans.

Initial Thoughts

• What does Ms. Milton need to know about students with visual impairments?
• What should Ms. Milton consider when creating lesson plans to ensure the inclusion of Evan and Emily?
• How can Ms. Milton facilitate Evan’s and Emily’s social adjustment?

Perspectives & Resources

❖ Module Objectives

• After completing the entire Perspectives & Resources section and reviewing the accompanying activities, you will:
  ◦ Describe how visual impairments impact learning
  ◦ Explain the need for an expanded core curriculum for students with visual impairments
  ◦ Identify multiple strategies for altering educational materials and teaching methods for students who are blind and for those who have low vision
  ◦ Generate ideas for including and welcoming students with visual disabilities into the general education classroom

The contents of this resource were developed under a grant from the U.S. Department of Education, #H325E120002. However, those contents do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement by the Federal Government. Project Officer, Sarah Allen.
